Including Otto von Bismarck. "Die Ideutschen Kreise waren geprägt von Rassendünkel, schärfstem Antisemitismus, einem die Expansion fordernden Autarkiekomplex und dem Bekenntnis zum Krieg als schöpferischer Lebenskraft".

Die Alldeutschen beharrten besonders auf einer „natürlichen Ungleichheit der Menschen“.[38]

Hitler citation:"You know, Ley, it isn't by chance that I have the Party Rallies open with the overture to Rienzi. It's not just a musical question. At the age of twenty-four this man, an innkeeper's son, persuaded the Roman people to drive out the corrupt Senate by reminding

them of the magnificent past of the Roman Empire. Listening to this blessed music as a young man in the theater at Linz, I had the vision that I too must someday succeed in uniting the German Empire and making it great once more."

Could have been the starting shot for a new Austro-Germanic union. Only two years later something had changed.

Probably also means that he had seen then the Jews as the major part of the corrupt "Senate". But what "Senate"?)

1982 I get born - officially on 21. June in Vienna as Martin Kremecek, eye color green-brown with yellowish halo, hair color black, skin tone Caucasian, adult height 1.72m. Father is Werner Kremecek, mother is Helene Kremecek (born Battisti) with brother Alexander ("Alex") Kremecek (~5 years older) and half-brother Gerhard Wallner (~10 years older). Werner looks a bit like Oleg Cassini but is Austrian type. Whole family is actually Austrian-Romano, Eastern European influences are in actuality not really seeable. An aunt was called Leni. Helene also was called "Hedi" (like "Hedy Lamarr", also Viennese), not Leni, although Leni is German abbreviation for Helene (like Helene Riefenstahl). An uncle was called Fritz (like Fritz Lang) and later cared about Africa. There was also a dying mentally sick grandmother I forgot the name of (dead since long). All other family contacts heavily superficial and rare. What is also noteworthy is that repeatedly mentioned was the vacation they took as family before I had arrived in Rimini, Italy, a town at the Adria. Inofficially it is said I come from somewhere else in actuality. Well, at least definitely can be said I always really felt like I don't belong here.

Interestingly the book story contains a hijacked plane with 2 hijackers. The plane flies from India to Britain and explodes over the English channel. Also contains a secret underground brothel where the prostitutes assume the roles of a protagonist's wives.

Smells like intentional provocation. Could be early sign of the 9/11 plan, but I believe is used for the later blaming of Islamists. Rushdie around 88 was newly married to an American writer that was born in Pennsylvania. Note that just in the same year is released "The Prince of Pennsylvania" with Keanu Reeves)

1990 ~ Start of Japanese Culture Invasion. It is noted that Japanese culture popularity had started to significantly rise since 1960ies. In the early 90ies the West saw a big wave of highly popular and important works. That also had happened along with the ever growing popularity of home consoles and video games. From around 2000 on one actually saw a slow fade-out but Japanese culture remained a part of everyday life.

1990 (note I use Austria release date) Akira (anime, by Katsuhiro Otomo, monumental cyberpunk film that defined the culture invasion and had big impact throughout the 90ies. Plot outtake: On July 16, 1988, the third world war is triggered by the sudden destruction of Tokyo. The metropolis has been rebuilt as Neo-Tokyo on artificial islands in Tokyo Bay. In 2019, the city is plagued by corruption, anti-government protests, terrorism, and gang violence.

The heart of Akira is about the life of paranormal humans and how human society reacts to them. A doom spelling masterpiece. Interesting: throughout the whole film everyone asks where Akira is and when he is coming while the active protagonist is called Tetsuo. Only at the very end arrives Akira, shining and greeting through a "Ball of Flesh". Most interesting detail: The same happens at the end of "The Guyver" series (. Anyone who has not seen Akira - watch it.

1992 Wayne's World (film like combination of This is Spinal Tap (Drescher) and Tune in Tomorrow (Reeves), main character Wayne has his own cellar based TV station, also has a trace of Bill & Ted's Excellent Adventure (party time excellent), smell like family agreement schitsel regarding Martin)

1992 Fettes Brot is formed (music, Hamburg, Germany)

1992 Nick Cave ATBS Henry's Dream

1992 The Offspring Ignition

1992 The Prodigy Experience (music, red circus smell)

1992 The Shamen Bosssdrum (music, single-video "Ebenezer Goode" - potential play with name Goodrich (Benjamin, brother of Gisele Galante (de Havilland)). But officially Goodrich died 1991 in Paris. EVEN MORE strangely a few years later in 1995 "college" classmate Johannes Reschl looks almost identical to Goodrich when he was young. Reschl did later some Portugal and South America travelling and makes films (time of writing at Filmagio in Austria). The song Ebenezer Goode includes nickname Mrs. Punchanella (jokey version of Drescher). Has already basic feel of ADII Nada Moonshine, probably because it also integrates Dune already. The main guy looks like Richard Nagy, whom I meet around 2006 in Vienna)

1992 Faith No More Angel Dust (music)

1992 NIN Broken. (Ep) (music, Halo5)

NOTE: next year "The Nanny" starts with Fran Drescher, expect a double-triple pun)

1992 Falco Nachtflug (music)

1992 Sneakers (directed by Phil Alden Robinson, River Phoenix, Dan Akroyd, Robert Redford, Ben Kingsley; reads like a cold war drama like Daughter of the Mind with Gene Tierney set also in 1969 with main character called Martin)

1992 Die Prinzen Küssen verboten (music)

1992 Luc Besson marries Milla Jovovich

1993 Start of The Nanny (series, Drescher, later also includes again an episode about "This is Spinal Tap" (S05E03))

1993 Start of Magic The Gathering TCG (game and brand By Wizards of the Coast, (like Lord of the Rings is a brand)). Later on in Mtg wiki online: Orzhova: The Church of Deals ("you better pray BEFORE you enter") fits totally the hypothesis that de Havilland is "Jabba de" - "Olivia de" of Star Wars (prime slaver and dealer, famously has a personal female slave on chain). de HAVE - de HUT (pronounced de HAT is like German for HAVE)

1993 River Phoenix dies in West Hollywood, Usa. One year after Sneakers the cold war drama with character Martin.

1994 Tori Amos Under the Pink (music)

1994 Sega Saturn

1994 EAV Nie wieder Kunst (music)

1994 Rammstein band formed (Berlin, Germany)

1994 The Horde (by Toys for Bob, Silicon Knights, Crystal Dynamics, very interesting cutscenes and opening, young servant boy Chauncey accidentally saves the King and is appointed protector of the realm. His task is to save the kingdom from the terrible, insatiable Horde (devilish creatures))

1994 Under a Killing Moon (by Access Software, very interesting game with "Interactive movie" flair. Private investigators Tex Murphy has to save the planet for it supposed to get destroyed by a moon base laser. Like a combination of Moonlighting (with Bruce Willis) and Nada Moonshine - out next year. Really interesting dialogues and cutscenes.)

1995 Austria joins the EU

1995 I start at advanced technical school (a bit similar to college) in Vienna to learn computer programming and so.

1995 Sony Playstation

1995 Windows 95

1995 Pulp Common People (single-video, UK, important as it includes the phrase "I met her at some Martin's college" just the year I had started with Austrian "college". The rest of the video is also interesting, showing some kind of "Lulu" woman and mechanically dancing/performing people)

1995 ADii - Nada Moonshine

1995 The Shamen Axis Mutatis (music, strangely it appears the shamen is referenced in Moonshine - includes.the phrase "12 shamen in an Indigo sea")

1995 Strange Days (by Kathryn Bigelow and James Cameron, Ralph Fiennes, Juliette Lewis, soundtrack main song contains "2000 major war, strange days like eyed before" in main song by Lords of Acid, set in 1999. Foreshadows 2000 and basically states a plan)

1995 The City of Lost Children (by Marc Caro and Jean-pierre Jeunet, dark fantasy science fiction, feels like a collection)

1995 12 Monkeys (by Terry Gilliam, Willis, Pitt, 12 Monkeys organisation wants to bring doom with a virus)

1995 Faith No More King for a Day Fool for a Lifetime

1995 NIN Further Down The Spiral (music Halo10)

We visited Universal Studios theme park, a couple of companies like Sierra (games) Yosemite, Living Books, Borland, Adobe, Wired Magazine. Of course also some sightseeing.

1996 Jack (film by FF Coppola, Drescher)

1997 End of Married... With Children (series, after 10 years)

1997 The Devil's Advocate (film, by Taylor Hackford, Reeves, Al Pacino, Charlize Theron)

1997 Death of Princess Diana

1997 OnEscapee (by Invictus Games, Sadeness Software, the opening cinematics are most noteworthy. SCI-FI story includes assassination, human hijacking, and a car accident in a sad tone. Like in memory of...)

1997 Y2k problem Options de Yager Index start trading. One spoke of scaremongering up to 2000

1998 The Truman Show (by Peter Weir, Jim Carrey, Laura Linney, Holland Taylor)

1998 The Big Lebowski (By Coen brothers, Jeff Bridges, Julian Moore, Goodman, Buscemi, Philip Seymour Hoffman)

1998 Falco death (car accident, in Dominican Republic, I suspect this is a schitsel because car accident stories are also famously told about Joseph. Joseph is Adria - again a territory switch like with Caribbean. Suspicious. I also remember that previously Falco was seen more like "enfant terrible" in Vienna. After this point though he is suddenly seen like a big beloved hero by the Viennese. In the years before his death he releases the VERY VERY STRANGE T>>MA, T>>MB marked singles. two years later is first release of Prinz Porno and Homelife is officially formed)

1998 Falco Out of the Dark (Into the Light)(music, single-video "Mutter der Mann mit dem Koks ist da" (relevant))

1998 Thief: The Dark Project (Looking Glass, Brosius, Levine, noteworthy for its plot - very Berg style. At the end Satan must be defeated.)

1998 Homelife Homelife (music)

1998 Prinz Porno Porno Privat (music, Berlin, Germany, 1st release, at time of Falco death, I believe the artist being the actual T>>MB Naked and coincides with Homelife, being probably the major actual Homelife start deal. The texts are actually often very personal and (this) topic related. Interesting is that it acknowledges the existence of a T>>MA person, but rather integrates him in some way as "subjugate" or quasi also source. Also includes: "Marties better drop" on song "Battelking". Also strange is the song "Rapcommander MK1". I believe he is also part of a deal of de Havilland with Johnny Halliday (later looks like an ultra weird

Cassini/Werner). He really wants to make clear his texts that he as T>>MB is the actual one person if importance. All this, together with later band cases, makes it obvious that this band was formed as important Amon Deal personally directed against T>>MA. From now on called the "Homelife" deal.)

1998 Fettes Brot Fettes Brot lässt Grüßen (music, "Jugend forscht" includes 1.72 as height which is exactly my own, probably the older German rap/hip hop band did this to compete with the introduction of Prinz Porno saying like "look, we also got new stuff and details". Important is also their single-video "Da draussen" which states exactly that)

1998 Tori Amos From the Choirgirl Hotel (music)

1998 Chrysta Bell Happy Feet (music, Texas)

1998 The Shamen UV (music, final release)

1998 EAV Himbeerland (music)

1998 A Clash of Kings (Song of Fire and Ice II, by George R.R. Martin)

1999 The Euro is introduced as currency

1999 End of The Nanny (series, Drescher)

1999 Drescher divorces Peter Marc Jacobson

1999 James Bond The World Is Not Enough (by Michael Apted, Brisbane, Carlyle, Marceau, Richards, James Bond is entrusted with the responsibility of protecting the daughter of an oil tycoon. (seems like UK was protecting Drescher) While on his mission, he learns about an even more dangerous plot.)

1999 eXistenZ (by Cronenberg, Jude Law, Willem Dafoe, similar story to Strange Days, tagline: "play it, live it, kill for it." also similarities to Matrix)

1999 Matrix (film, Reeves, Wachowski brothers - said Johnny Mnemonic very important inspiration)

1999 Sixth Sense (by M. Night Shyamalan, Kathleen Kennedy, Willis as Malcolm Crowe and supernatural child Cole Sear, child can hear dead people (in daughter of the Mind the dead child is heard))

1999 The Messenger: The story of Joan of Arc (by Luc Besson, Milla Jovovich, Jean Reno, schitsel for Joan and Arc)

1999 Being John Malkovich (Cusack, Malkovich, Diaz, Mary Kay Place, most famously noted story of personal human hijacking. Includes a Lulu style character called "Maxine")

1999 Fight Club (film, by David Fincher, Pitt, Norton, Leto, Bonham-carter, Meat Loaf, Sanchez; film with interesting story. Norton reminds me of the later Austrian minister Blümel, as far as I could see this involves what on Austria is the OEBB (Austrian Railroad) fight club with a neo-nazi attitude. Also again involves confusion of identity as there are 2 Tyler Durden characters)

1999 NIN The Fragile (music, album itself aka Halo14, includes "The Day The World Went Away" aka Halo 13, "We're in this together" aka Halo15)

1999 Tori Amos To Venus and Back (music)

2000 EU sanctions Austria for FPÖ joining official government under Jörg Haider (outspoken Nazi) but the sanctions are of rather symbolic nature only.

2000 Fatboy Slim Halfway Between the Gutter and the Stars (music)

2000 EAV Austropop in Tot-Weiß-Tot (music)

2000 American Psycho (film by Mary Harron, Christian Bale, Jarrod Leto, Willem DaFoe, Ronald Reagan, Reese Witherspoon, based on book by Bret Easton-Ellis, somehow very well resonated with my mood at that time. Has the charme of Martin's revenge stories)

2000 A Storm of Swords (Song of Fire and Ice III, by George R.R. Martin)

2000 End of Japanese Culture Invasion. I believe the JCI was there for 10 years to simply burst open access to the West. Japanese culture remains totally normal and accepted since then but the overall importance year-by-year never again was as high as in the early/mid 90ies.

2001 Start of George Walker Bush (Texas) presidential period

2001 The Man Who Wasn't There (Coen Bros., Thornton, McDormand, Badalucco, Gandolfini, Scarlet Johansson, Strang film and strange timing like it is exactly trying say something about American Psycho released just one year before. I was a great fan of AP and still find it amusing... the film though is really weird and actually unfunny. Like "yeah, yeah...")

2001 Das weisse Rauschen (Hans Weingarten, Daniel Brühl, English: The White Sound)

2001 Wumpscut Wreath of Barbs (music)

2001 UNKLE Do androids dream of Electric beats? (Japanese radio Dj mix, reference to K. Dick book could be joke like: no, of K.'s dick!)

2001 9/11 attacks On World Trade Center. (potentially inspired by 1988 work of Salman Rushdie "The Satanic Verses". Since there was Islamic escalation against the book and Rushdie this makes for an easy excuse to blame the Islamists. Remember that Pennsylvania was going on 1988. Probably means that the major teatro reavers were involved in the book. Like a premonition of this event / Start of a plan. The Rushdie book is definitely part of "Devil" teatro.)

2001 Start Global War On Terror

2001 Zoolander (by Ben Stiller, Milla Jovovich, Owen Wilson)

2001 Regina Spektor 11:11 (music, first album, born in Moscow, Russia, New York Usa, title suggests "mere coincidence" like in numerology. A cynical remark)

2001 Anika Kremecek is born (by Polish mother)

2001 The Fabulous Destiny of Amélie Poulain (by Jeunet, Audrey Tatou, Amélie is Lulu type, Amélie is born in 1974 (Hijack year) in 1997 decides to bring happiness to others because of a boy)

2001 Die Prinzen D (music)
2002 Firefly (series, Fox, by Joss Whedon/Mutant Enemy Productions, Space Western drama, the adventures of the renegade crew of the Serenity, a "Firefly" class spaceship. Main character is the young captain Malcolm "Mal" Reynolds that is reminiscent of Bill Pullman in Spaceballs. The story is like after his brave fighting a HUGE armada suddenly drops in and he has to concede defeat. Later on he scraps together some last funds and buys the little spaceship Serenity.
Firefly maintained an ensemble cast that portrayed nine crew members and passengers of the ship, Serenity. These characters fight criminals and schemers, Alliance security forces, the utterly psychotic and brutal Reavers, and the mysterious men with "hands of blue"—who are operatives of a secret agency which is part of the megacorporation referred to in the DVD commentary only as The Blue Sun Corporation.

Most noteworthy: The "Companion" woman, Irana Serra (by Morena Baccarin) looks like Lilliana Voss in MTG. There is River Tam (by Summer Lyn Glau, Texas, an experimented with phenomenal woman (child prodigy)). Mentally instable (plays a bit like Snakepit). There is her brother, a young medical doctor (Simon Tam) that looks once again like Richard Nagy. I suspect that Firefly was done as cover-up schitsel so they do not look that bad after 2000 plus is camouflage for Lilliana actually receiving the "Serenity", not me. In Firefly she receives ONLY a shuttle, not the whole ship. In reality everything. The Serenity is then equipped with high-end hardware and is commonly known as the "Delila". That must then have happened in the early 2000s. Again also Texas involvement is smellable. Since Lilliana is rather known to be a French, another case of de Havilland handing over something of importance to someone else closer to her. Perhaps also handled by Goodrich.)

2002 Okkervil River - Don't fall in love with everyone you see
2002 Homelife Flying Wonders (music, cover contains yellow tinted baby on red background, reminds a bit of "From Dusk Til Dawn" cover, Nada Moonshine film)

Includes the song Voiture En Rouge that has something to do with MTG's Lilliana. It is sung by a guest performer called Rachael Rose, but who this person really is is really hard to say. She was one totally considered "Merde".)

Perhaps handled through Amon Düül UK, as Homelife is UK based too. Actually way too small to call it a real Amon Düül but they handle it themselves anyway...)

2010 Die Antwoord \$O\$ (music, first release, South Africa, single video "Enter the Ninja")

2010 Grinderman Grinderman 2 (music)

2010 Future News (online short film, The Onion News Network, fake news straight from the future, very amusing and very interesting. Speaks Doom, a world gun, Miami being totally under water and more...)

2010 The Tourist (by Florian Henckel von Donnersmarck, Jolie, Depp, Bettany, Dalton. The poster for the film looked so similar to me that even Saskia mentioned it like 10 times that someone must have seen me. Strangely around a year and half later Johnny Depp is noted as being in the hotel right next to my office (Bigpoint) in the center of Hamburg having a talk with the new CEO of Bigpoint, Khaled Helioui)

2010 Wumpscut Siamese (music, cover style is half-comic)

2010 EAV Neue Helden braucht das Land (music)

2011 Bright Eyes - The People's Key (Conor Oberst, traces of Milla and generally about the situation, was supposed to be final release of band, name is play on Milla album 1998 when first release was)

2011 Beirut The Rip Tide (music, I remember that exactly around that time there was something big and negative going on)

2011 Bill Ryder-jones If... (music, UK, first release, rather artsy/serious tone, I have the feeling that BRJ was part of Homelife deal, as next albums are very personal and as unknown UK guy jumps into Hamburg scene. Suspicious. Perhaps Homelife Ad: UK activity)

2011 David Lynch & Chrysta Bell Bird of Flames (single video, shows a "Poison Ivy" slipping out of a cocoon, cast by a Chinese. I was being together with Saskia. Later on in Iceland library I found "Acid Make-out" by some "The Danny" from Norway. A Lynch-esque shortfilm in which a girl is being remodelled/prepared for something (like through mental grilling). The girl gets prepared for some kind of party. I was pretty sure it could have been Saskia, as she was looking a bit alike and also always said that she always knew that Someday (the name of the soundtrack) she would go to a very important party and meet someone (we had met at MI:R party). So probably the Nordic themselves had prepared her. Most likely anyway because she is a Nordic girl..., album This Train)

2011 Chrysta Bell Friday Night Fly, (single-video presented as V Magazine film by Trevor Undo, album This Train)

2011 Lykke Li - I Follow Rivers (single + Magician Remix, strangely the Magician Remix (not the original) is played in bars and around town in Hamburg popularly.)

2011 (Sep) Monkey Island Revival Party Hamburg (MI:R Hamburg). For one more time I host the party in Hamburg. Things were already pretty bad but pull it off anyway. Saskia made a lot of trouble in the preparation time. Look at the interview recorded. Party actually went surprisingly smooth, nice atmosphere despite my bad mood. Saskia as always dressed as Miss Marley (game character) and was since long also internet online calling herself so. The video has strange similarity with 2020 Woodkid video "In Your Likeness")

2011 Björk Biophilia (music)

2011 Gotye Making Mirrors (music (Belgian-Australian), single video "Somebody that I used to know". Was huge hit but his final album... Wouter André "Wally" De Backer (born 1980))

2011 St. Vincent Strange Mercy (music)

2011 Tori Amos Night of Hunters

2011 Payday The Heist (game)

2011 Prinz Pi Rebell Ohne Grund (music)

2011 Wumpscut Schreck&Graus (music, first cover with comic style)

2011 Attwenger Shakin' My Brain (single-video, Linz band, very interesting. Mentioning Lady Gaga and a Peter(sil, wordplay name/herb, later on in Muppets Most Wanted (2014) is a Peter Linz and also Lady Gaga. Lyrics essence is you were shaking my brain! (Peter). The singer is called Hans-Peter Falkner)

2011 Hubert von Goisern Brenna tats guat (translates into burns well/you burn well, Goisern, Austria. Interesting lyrics at same time of Attwenger song. Two of the still most played songs in Austria. Is like a warning reminder song, probably because countryside Austrians also wanted a piece of the cake.)

2011 Arthur (by Jason Winer, with Russell Brand (later to be famous part of "99%" movement), Jennifer Garner, Nick Nolte, Murphy Guyver, Remake of 1981 film. A drunken playboy stands to lose a wealthy inheritance when he falls for a woman his family doesn't like. Really stupid schitsel for Whitey(Salzburg style) America.)

2011 The Cabin in the Woods (by Drew Goddard, Fran Kranz as Marty Mikalski, Sigourney Weaver as The Director. Cover is reminiscent of the take off scene in Wizard of Oz (original). In total this feels like an American schitsel together with the Austrians. Also feels like an alternate reality film - it plays in a forest but the environment is virtually controlled and artificial. A group of friends meet in a cabin for holidays but something is wrong - Marty feels observed and everyone starts acting weirdly. There is some kind of game master that chooses how everyone will die. Marty gets death by Redneck Zombie family e.g.. Marty vanishes, all get slaughtered except one woman. By accident Marty had survived and found a secret underground entrance that actually is an experimental underground compound. Together they explore it, get through it and at the end have the choice to kill each other or not. If they do all will go on as before, if they don't a new God will rise and bring upon the end of humanity. In the end they choose to not kill each other and the God rises.

This all is wrapped in some kind of ritual story - everywhere in the world are performed evil rituals in which the good dies. The prophecy is that if any of the evil rituals fail, the end of the world will come. Really weird, especially later in 2020, where I also encounter a publicly so called ritual - but the real logic is inverted in reality - because no one stops the bad ritual a greater evil is unleashed - as is common sense.

This film really interested me because I always in childhood and youth spent holiday time in a small Austrian village called Göstling. Imagine this being a film like all of the happenings described being actually there. And Bingo, there you are. This also fits well because in this year truly the Austrians had been active (Attwenger, Hubert von Goisern). This film plus the film Arthur is like one schitsel for Austria/Forest/Linz, and one for America/City/Salzburg. Later on in that Austrian village again I experience a lot of strange things that remind me of this film. Also note that with the Marty character is again a collision of Fran/Marty and Marty within Eastern European family name (Mikalski) that even reminds of Lebowski)

2011 End of Iraq war

2011 A Dance with Dragons (Song of Fire and Ice V, by George R.R. Martin)

2012 Die Antwoord Ten\$ion (music, single video "Baby's on Fire", single video "Fatty Boom Boom")

2012 I get a serious "burnout syndrome" at time of release of Marteria Lila Woken (purple clouds, October) and voluntarily enter hospital for a couple of weeks to recover. Since then I myself felt like in war - had the impression they wanted to kill me and decide to start "struggling". At the beginning had serious short term memory problems.

2012 Hotline Miami 1 (by Dennaton Games, Devolver Digital)

2012 Dishonored 1 (by Arkane Studios, Bethesda Softwares, this game contains important hints towards the slaughterhouse in Linz,Austria. Very interesting story)

2012 Piggy ((film (Mystery/Thriller), like based on Hotline Miami and Hotline Miami 2 Pigman story based on this film. Joe becomes friends with Piggy after his brother is murdered and finds his life spiraling down a path of vengeance and violence. Joe is played by Martin Compston. Piggy is played by Paul Anderson (named like Jovovich husband). Hotline Miami 2 (2015) says actually Martin himself is "Pigman".)

2012 Sex House (online series, by The Onion News Network, fake reality show, very interesting but amusing plot about a reality show going seriously wrong...)

2012 Life of Pi (by Ang Lee, Sharma, Khan, Depardieu, plays in India)

2012 James Bond Skyfall (by Mendes, Craig, Bardem, Fiennes, Harris. Official description: An ex-MI6 agent steals a hard drive with top-secret information to carry out a vendetta on Bond's overseer, M. Bond must face his past in a bid to try and save M.)

2012 Wumpscut Women and Satan First (music)

2013 Miley Cyrus We Can't Stop (single-video, strange video talking about a party together with "Marley", note again that Saskia was called Miss Marley because of MI:R.

2013 Miley Cyrus Wrecking Ball (single-video, noteworthy. Fits exactly how I felt afterwards - everything again wrecked and gone. This video has like the purpose of saying: "you know, was simply Miley because she was so madly in love". And of course she is now the hurt one...)

2013 German election periods start - including Merkel, Steinbrück, Gysi. I remember that things got even worse back then. Also it took like until 2022 for "Merkel Germany" to stop pestering around noticeably.

2013 Joan Fontaine dies in Carmel Highlands, CA

2013 Woodkid The Golden Age (is artist name of French artist Yoanne Lemoine (born 1983), single video "Run Boy, Run", single video "Iron", single video "I love you". also worked for Lana del Rey, Katy Perry and Taylor Swift as video director. "Iron" is also used for "Assassin's Creed:Revelations" trailer, 2013 "Run Boy Run" for the "Dying Light" trailer. Very popular in my final Hamburg year)

2013 Bill Ryder-Jones A Bad Wind Blows In My Heart (BIR is UK born 1983, single video "Wild Swans" (relevant), single video "He Took You In His Arms", single video "You're getting like your sister" (relevant, again devil topic), also contains "Lemon Tree #3")

2013 Payday 2 (game, by Starbreeze Publishing)
2013 Bill Ryder-Jones Piggy Soundtrack (music for film "Piggy")
2013 Prinz Pi Kompass Ohne Norden (music, single video: "Hundert Mal" (relevant, shows a girl looking like Saskia who had been unnervingly played one song around a hundred times for real: The YouTube/Internet song "The Amazing Horse HD" first released Oct. 2009. She found it hilarious), song "Kompass Ohne Norden" contains phrase: "Bob Dylan gab mir einst einen Kompass ohne Norden, so treibe ich verloren in ein unbekanntes Morgen". Like a real foreshadowing of my future journey, although I went to Iceland later anyway)
2013 Fettes Brot 3 is ne Party (music)
2013 Franz Ferdinand Right Thoughts, Right Words, Right Action (music)
2013 Oz The Great and Powerful (film, by Sam Raimi)
2013 Nick Cave ATBS Push The Sky Away (music)
2013 Wumpscut Madman Szpital (music)
2013 Project Pitchfork Black (music, Hamburg, very relevant album including singles "Acid Ocean" and "The Circus" saying like they self-gloriously let all sink into the acid ocean and life is just a circus. PP is really special in its connotation as it (like EAV the Austrian band) uses these Viennese sounding male voices and has a cynical, dark type of humor that is actually quite critical of the events that had happened. The album is really still of value.)
2013 The Cave (game, by Double Fine, Ron Gilbert. Shortly after the MI:R party the first new Ron Gilbert game. I had met Ron Gilbert in person together with Saskia in Hamburg plus the graphics artist of "Braid" the game. The cave is like a Berg story schitsel, like he had been there.)
2013 NIN Hesitation Marks (music, Halo28)
2013 Ukraine - EU Associative Pact
2013 Hotline Miami A Short Film (well done YouTube "fan" video, introduces the Hotline Miami Network, contains story about biker and Jacket, finding Lisa)
2013 I had worked for the companies Good Game Studios, Innogames and until end of stay Bigpoint. I had received my China invitation (it was yellow, the receptionist was acting surprised) to dash off to Shanghai, China into my new job (once I had called it "moving from the Lion's den into the Dragon's den"). There I work for CCP Shanghai as game designer. CCP is an Icelandic company famous for "Eve Online". I work on their Shanghai production "Dust 514". They knew Björk for they even called her and asked about a video. Shanghai stay went enormously chaotic and dangerous. People I met: "Sylvia (Poland) + Ray (China), Iza (Poland) + husband Björn (German), Lisa (China) + husband Markus (Austria), Lana (Russia) knowing Lisa/Markus.

In hindsight this is weird because there is this Hotline Miami Shortfilm that says "he has to find Lisa. Lisa knows how to reunite him with his wife.". Lisa knows Lana. And Lana is in teatro portrayed like a potential wife. Although Lana was Russian she was once preparing a weird party that smelled like Usa. Someone looking dressed like Lady Gaga, a Santa Claus and a strange bunch of people. I felt uncomfortable, left and basically stopped the contact. I was almost unaware of Lana del Rey at that time. Anyway, a strange setup. Also Björn/Björk smells fishy. Markus later on moved also back to Austria with Lisa. Sylvia moved back to Poland and Iza and Björn back to Germany.

Shanghai back then had the highest air pollution ratings since a long time. Lots of quarreling in the company. Very dangerous radio air (as if pollution was a schitsel for it). Sylvia was someone knowing David Bowie (Ziggy Stardust). Spent most of time with Sylvia who was most willing to help. Once got enormously dangerous headblast and almost fell of balcony (but it was glassed). Icelandics were behaving weird. Way too strong radiation. Producer was Thomas an English who was acting weird and was acting like blocking me. He had previously worked on "Mirror's Edge". Started quarrel with him because he was blocking me and then I had to leave the company. Have one more month more then in Shanghai anyway and hang around Sylvia a bit more before going back.

2014 Brody Dalle Diploid Love (music, punk rock, birth name: Bree Joanna Alice Robinson, single video:"The Foetus" shows in animated film style strange journey of a magical foetus with Brody looking quite a bit like Sylvia. Then seemed to me like she had been awaiting my arrival, Sylvia herself had a past of punkrock and "anarchia" in Poland).

2014 Project Pitchfork Blood (music, Hamburg, contains yet more really interesting songs of relevance)

2014 I also remember I found her looking and acting like in two songs: The Black Heart Procession "Rats" (video) and Nick Cave and The Bad Seeds "Fifteen Feet" (of pure white snow, video). Once I ask her: "Doesn't that one look like you Sylvia?", she doesn't even properly look and says "no!". Found her very suspicious but she was showing me around Shanghai at least.

2014 Coldplay Ghost Stories (music, single video: Magic (featuring Chinese actress Zhang Ziyi))

2014 Marteria Zum Glück in die Zukunft II (music)

2014 Ukraine Crisis begins. I personally find it weird because it felt like I'm first time in China and Euro freaks out.

2014 My Shanghai stay lasted 3 intense and physically draining months (chemicals n' "chemical brothers" chemicals. NO drugs...). Had like permanently stayed on high alert. Leave with signs of exhaustion.

2014 Thief 4 (by Eidos Montreal, Square Enix, in some ways very similar plot to Dishonored 1 but stays in more Gothic attire. Fells like a cheap rip-off version of Dishonored 1)

2014 Die Antwoord Donker Mag (music, single-video "Ugly Boy")

2014 Cease-fire on 21st June, thanks for peace on birthday bro! Can't remember it being silent though...

2014 Ukraine Fighting again on 1st July

2014 I return to Austria and stay In Vienna for some time before moving to the village Göstling a.d. Ybbs to recover.

2014 After some strange time in the village I decide to return to Vienna and sometimes meet Sylvia in Poland (acquaintance from Shanghai, China)

2014 Sin City 2 (by Rodriguez, Route, Willis, Alba, Garner, Liotta, Lloyd, feels like a strange collection of short stories from Vienna/Linz...)

2014 True Detective S01 (produced by Lee Caplin, characters detectives Rust Cole and Marty Hart, plays in 1995, 2002 and 2012)

2014 Lera Lynn Standing On the Moon (single-video, Lera just had gotten more famous through True Detective series. This song and video is particularly interesting for it actually stands to defend their actions in Hamburg time - signified by the woman who plays guitar in the background - looks like Miss Marley / Saskia. Like saying - yeah yeah Martin, you know, actually just because of Saskia.)

2014 Acid Make-Out (short-film, Daniel Thorsteinsson, Lynch-esque dream like film about a girl getting done something to (like brainwashed). The girl is like a young teen and gets prepared to one day go to an important party. The girl looks actually enough like Saskia/Miss Marley to suspect there is a link. The soundtrack is called "Someday" and does include topics of relevance. Like really saying what she got back then was "Someday this will happen". She is just a little girl is definitely a statement made.)

2014 Death of H.R. Giger. Some fans put together an interesting animated video with his art called "H.R. Giger - Art in Motion". Highly interesting and somewhat fitting.

2014 Muppets Most Wanted (film, by James Bobin, Gervais, Burrell, Peter Linz, a very strange film that is like a double-triple-quadruple schitsel. It is like a good Kermit/bad Kermit story with strange humor. Very noteworthy is that the badguy called Badguy is called Dominic and has the villain name Lemur. This character looks a bit like one of my ex-work colleagues from Vienna at the company Usecon/Cure. He was called Dominik Unger and had the Skype (chatapp) nickname Lemur indeed. The story involves lots of confusions around Kermit. A Russian frog that broke out of his Gulag and has a birthmark is the villain and fakeplaces himself instead of Kermit to do crimes with Badguy (Dominic). The strange part is the birthmark - since Rammstein - Mutter a topic (birthmark on forehead) as well as Gulag - Beirut Gulag Orkestar and Wumpscut Gulag song. The film is obviously trying to create exactly such confusion itself. In the film most involved are USA, France, UK and Russia. In addition it includes indirectly (through a picture) Lady Gaga and in minor role Peter LINZ. Seems like a reference to Attwenger (Linz band) "Shakin' My Brain". It appears that this film is supposed to complete this "contract". Also Peter Linz is probably trying to hide the fact that Hans-Peter Of Attwenger/Linz was the actual target. Not Linz the city, Linz the person. This film is trying to hide/obfuscate something of importance most certainly. Makes it likely that around 2011 people related to this film were part of a bigger happening. 2011 was the year of major catastrophe in Hamburg. On total that package makes it certain that Linz, Austria was involved most importantly)

2014 St Vincent St Vincent (music)

2014 Tori Amos Unrepentant Geraldine (music)

2014 Drescher "marries" Shiva Ayyadurai (Ayyadurai claims it was just celebration of friendship among family)

2014 ~ Ukraine Annexation of Krim. I remember around that time the Ukraine president making a public Nazi remark like "Heil Hitler" in TV interview (I saw it on Russia Today). I remember it being roughly around the time a Klitschko brother (Germany) moved to Ukraine to support.

2014 Wumpscut Bulwark Bazooka (music)

2014 Start of Intervention in Syria (GWOT)

2015 After strange time in Vienna I dash off to Poland to see one more time Miss Sylvia and move on back to Hamburg and stay with the Jeffries (Maik and Monica)

2015 Hotline Miami 2:Wrong Number (Dennaton Games, Devolver Digital, contains story of Martin Brown the Pigman/Pig Butcher)

2015 Carpenter Brut Trilogy (also soundtrack to HM2)

2015 Prinz Pi $pp=mc^2$ (music, somehow funny because HM2 is so pixely... now is Mc squared...)

2015 Kung Fury (film, by David Sandberg, it says Swedish but the feeling is totally American. Includes David Hasslehoff. There is also a noteworthy soundtrack single-video "True Survivor". Strangely feels like Eminem "Phenomenal" done bigger)

2015 Ukraine - Minsk Agreement II

2015 Fettes Brot Teenager von Mars (music)

2015 James Bond Spectre (by Mendes, Craig, Waltz, Harris, Bautista, Bellucci, Fiennes. James Bond receives an obscure message from M about a sinister organisation. With the help of Madeleine, he uncovers the conspiracy, only to face an ugly truth.)

2015 Bill Ryder-jones West Kirbyville County Primary (music, single video "Wild Roses")

2015 Eminem Phenomenal (single, soundtrack album Southpaw, video includes man on the run after hospitalization in China. Includes again John Malkovich. Man gets helicopter shot down with kind of bazooka and lands again in a theatre.)

2015 David Bowie Blackstar (music, single video "Blackstar" (relevant), video tells strange tale of betrayal with a dark gloomy atmosphere)

2015 Lana del Rey High by the Beach (single, on Honeymoon, video shows her shooting down a helicopter with something like a bazooka from her house by the beach)

2015 Bjoerk Vulnicura (sounds a bit like polish "Kurva" that is an insult like "bitch")

2015 I move back to Austria and move on to Porto, Portugal for about 3 months before going back to Austria

2015 Beirut No No No (music)

2015 Faith No More Sol Invictus (music)

2015 Die Prinzen Familienalbum (music)

2016 Drescher and Ayyadurai part ways

2016 I leave Austria and go over Zurich to southern Germany and decide to stay a while in little town Baden-Baden. At the same time Usa election period was starting to roll (Trump, Hilary). I remember that around this time I had the first mind-flashes of who/what is considered the Delila in Dishonored game. That for sure was advanced hardware. In Magic The Gathering there is a character called Lilliana Vess. That one basically fits what I had been experiencing, but different of course. There is such a FRENCH woman noted in teatro, e.g. in The Blackheart Procession & Solbakken In the Fishtank song "Voiture en Rouge". Means that it relates more to Salzburg which is also symbolized by the unholy purple. She is described as dark/unholy magic user in Mtg. Is definitely the "Companion" character in Firefly series. She actually appears in "marriage proposition stance".

2016 Dishonored 2 (Arkane Studios, Bethesda Softworks)

2016 Hope Sandoval Until the Hunter (music, contains a song "A Wonderful Seed" about a Miss Sylvia)

2016 After a couple months I move Zig-Zag through all of Germany before jumping from Hamburg to Reykjavik, Iceland and stay there for 3 months before finally again going back to Austria. 2016 Chrysta Bell Somewhere in the Nowhere (music, single-video same name is interesting, check the lyrics. Also contains hints at doom, stating that the "Heaven" is going to be fixing a mistake)
2016 Chrysta Bell Beat the Beat (single-video, noteworthy, already contains talk of impending doom, album is Somewhere in the Nowhere)
2017 Start of Donald Trump (Pennsylvania) presidential period

2017 NIN Add Violence Ep (music, Halo31)
2017 Dishonored 2: Death of the Outsider (add-on)
2017 I have, still wandering about I have another mind flash of exactly the Delila type. Ultra crisp HD resolution. It ends with something written with skeletons but I cannot read the word. I have a gloomy feeling for some time. The Delila was most likely based in Linz for when I came there the Delila was active and strong. It was also already mentioned in 2012 as dangerous and important. I had agreed to marry her as long as she doesn't screw up this time. Well, guess what happens... anyway the marriage stuff was always just a pretense and excuse (is actually very common).

2017 Traveling around I stay a bit in Villach and stay with a Christian family that later introduces me to the famous "Heidi" (Heidi Truman case) that is living nearby. At some point I get a severe headshot lying in bed where I even heard my skull slightly crackling and have a concussion afterwards. I leave, visiting Heidi once more and dash off.

2017 Miley Cyrus - Malibu single (contact breaks off around that time)

2017 Miley Cyrus - Younger Now (music)

2017 I journey onwards and then decide to stay in Linz for a while. The first incident of importance was again with the Delila. For some reason something like a "suicide act" was performed that led to quite some long catastrophe that was followed by more and especially also USA waves. This triggered an implosion in the Berg that also triggered a "Mining storm-in" like in "Smashing Pumpkins" "Bullet with Butterfly Wings" performed by Linz/Linz AG. I lost all my special air contacts around that time. Also later is started my strange encounter with what was called the "Shellack Prince". Next to battle I meet again an old acquaintance of mine with family name Nada. Knowing Nada Moonshine by now there is a line that says : "and all is in the hand of his closest best friend". Until now no other acquaintances in Linz, Austria. While the control aspect surely is not true, still seems strange. Strangest though was what the Shellack Prince did (most assuredly the person depicted by Smashing Pumpkins single-video "Ava Adore". Indeed he has relations to this so called Leonie (portrayed as Linz Princess, Yolandie, Pzychobitch, Lucy, Lucilectric). Things get then totally weird but after a while I can in some way get rid of him. Most likely also the one portrayed as Voldemort. As far as I can see it he was a Wumpscutling (a child taken out of womb for a child swap) of one of the Havilland's - probably Galante. There was definitely a family relation for even Sheryl Crow cared to create an answer-video for Ava Adore that was called "if it makes you happy".

2019 I decide to leave Linz for it was getting very nasty and getting me nowhere. I take on a job at Attersee, little town at a lake, and leave after 1 month after a severe headblast (but no crackling or concussion this time) and feeling of chemical poisoning. I move around and on to Salzburg. For a while is comparatively not so bad but getting more and more negative too.

2019 Austrian Ibiza video scandal starts

2019 I start playing Magic The Gathering: Arena. Exactly around this time was the trailer for it: "War of the Spark Trailer" (Mar, 2019) including the death of Lilliana. Very fitting timing indeed. That extra confirms that the Delila in Linz had been Lilliana. Note that the Trailer puts the

innocence on her, although she was majorly also guilty. I remember there was lots of Church talk around afterwards and I figured out over air that the Church had acted like a "Buffet Master" for the "Great Feast". Especially the Salzburg Church had been an enormously strong problem ever after. The Church still has a supportive/protective stance towards the Delila. There is also the "Yummy" song that fits perfectly. "We are munching on and never gonna stop!".

2019 Stop of intervention in Syria (GWOT)

2019 True Detective S03

2019 Beirut Gallipoli (music, post-war feeling, I Linz flair)

2019 John Wick Chapter 3 Parabellum (film, Reeves)

2020 First noted Corona cases in Europe

2020 After weeks of hardly bearable bombardment in Salzburg I return to Linz and stay. "Miss Khaleesi" related air is on, ending in an ultimate "hell feast" of ultra burning. At some point a Nazi-esque female voice appears saying "Doom" leading straight into Corona lockdowns and crisis phase. I start then my doom report journey on which I find a small town near Salzburg where allegedly "Tifa" (FF7 character) found her "resting" place/stable. Not far from Kitzbuehel. Later on in Wels (town next to Linz) I remembered I once there got invited into a bar where sits a woman looking like a "Miss Khaleesi" sitting together with some older Austrians. I found her strange back then but nothing happened. After worst is over I return to Linz and stay. Very sure Hellfeast had something to do with Rita d'Oro because her Jewelry ads were then getting removed locally step by step. Interesting detail: before Hellfeast there was locally an ad for Rituals Cosmetics (Ritual of Jing campaign, reminiscent roughly of her and me (two posters, one man, one woman)). Ads for that brand are rather rare. On the street there were talks like about a "Sodom and Gomorra" event, the "Hustinetten Mafia" is mentioned. I remember that in the air the last scene of her was her stepping down into a hole in a room with one or two "monks". I also got told to not "go down", too dangerous.

2020 Woodkid S16 (music, Yoanne Lemoine, released Oct.16, is according to artist about sulfur which is the atomic number 16 and it's symbol S. Mind you though that the cover is showing something strange. A soldier like looking person (actually like a "Mario" soldier) has a rather intimate hugging with someone looking like a war machine. So if you ask me this is a joke about some "Sweet (October) 16" event. So much love amidst all the war. Single-videos "Goliath ("boy" is used again like in "Run Boy Run") and "In Your Likeness". Very strange tone to it all. The theme is ore/oil mining and refinery AND war. Like with the first album has a very gay tone. Strangely in total these songs say like: have you been blind? you were trying but you failed. NOW COMES GOLIATH. Before the Corona Doom outbreak. Reminds a bit of Cabin in the Woods where at the end rises a new God. Also very interesting to note is the feeling of similarity to the MI:R Hamburg video with Saskia and me. He is standing for quite a while with his face shown flat from the side - but he is on the right side of the view. The lighting wanders and so the shadows on his face change and he becomes hard to discern. The song also has this feeling of impending danger. He gives a flare shot from an emergency pistol. The Goliath video also reminds of Smashing Pumpkins "Bullet with Butterfly Wings". It states at the beginning: "The world is a vampire" and goes on showing some kind of mining operation. The singer main character is a young normal looking man with a shirt on stating "ZERO". The "In Your Likeness" song has in tone a similarity to the Beirut "Gallipoli" song like - almost dead frozen but still going on.)

2020 November peak of active Corona cases

2021 Worldwide Corona lockdowns

I "plunk" down in Linz awaiting the end of Corona crisis. Contacting the interior ministry of Austria via a series of emails at some point. Shortly afterwards a publicly noted Arabian diplomatic letter is talked about. I experience heavier and very heavy air traffic and assaults of "Dune" figures like I had especially seen concentrated in Salzburg. Right before another Corona lockdown Salzburg Airport offers a super special direct airplane line to Dubai. I experience also some stranger Arabian mind flashes. Also after the emails Austrian state assaults are getting heavy for some time especially including HC Strache figures (Ibiza scandal case). Also interesting: HC Strache party FPÖ had moved into to Wels, the town right next to Linz, during and after the Corona crisis.

2021 Around Christmas I have a strange encounter with a young German looking guy stating that he has seen my brain and he knows me. Always saying he can't really talk. Complimented me for the "drive" of my brain. Also said he came here specifically for me and spent a lot of money to see me. In Linz so far the only encounter of this type.

2022 I am still in Linz and await the end of lockdown and start more detailed investigations on the "Blue Angel" case. No replies or special events personally happened in normal real life. With "devil" hideout location in hand I contact the local Linz police but no reaction whatsoever. I suspect the police simply being "street cleaners". All that matters is that things look "smooth" on the surface. Throughout all the years in Linz and Austria that is confirmable. I give hints to the BND, the CIA and the MI5 around Start of August.

2022 End of Corona lockdowns in Austria

2022 Russia attacks Ukraine. This timing I also found strange for it was really right after Austrian lockdown end. Later I hypothesized that in Ukraine actually an arc-node is hidden and that this the reason why fighting over it ensued when I was in China and then again after Doom peak and lockdown. Sounds like totally ridiculous at the start (that is why I didn't take that into account myself until then) but not if you know them and how it works (insanity... and what was really going on for a long time was totalest insanity...)... Don't forget that Euro's largest nuclear powerplant is in Ukraine as only a small country... what for? I also noticed Ukrainian soldier traffic around Linz immediately. Even found two mobile phones of soldiers (definitely soldiers) in main train station.

2022 Carpenter Brut Leather Terror (music, single-video "Imaginary Fire" (relevant))

2022 I take a deeper look at the "The Blue Angel" time including Dietrich, Riefenstahl, de Havilland etc.. After a while I get the impression that already back then they were "riding" on someone. Later on I find Gene Tierney, find her strange and start looking in more detail. After a while I am very sure that actually she was the one they were focused on back then. Also find this strange similarity in Fran Drescher, Bjoerk and Michael Landon and Gisele Galante (daughter of de Havilland).

2022 Regina Spektor Home Before and After (music)

2002 June - I figure out where the "Devil" entrance is - aka "The Monkey Head Entrance" (like in Monkey Island 1). Directly in Winterhafen district Linz right next to the Quadrille building (Tabakfabrik, a place where also international artists come and go). A strange but for Linz large hotel is nearby. Quite hidden with a courtyard and "fit for limousines", labelled "ultra clean". The building is an old slaughterhouse that houses the so called "Rotax Max Dome". A cart racing venue very modern with some kind of "cyber tunnel" as special feature. Rotax is a company of Austria, subsidiary of Canadian Bombardier, manufacturing small engines. Note Rotax translates by meaning roughly into "red axis". Wordplays on Winterhafen usually contain Winter Or Haven plus something else. In Dishonored 1 (game) for example the district is called Wrenhaven about a slaughterhouse. Like "W for winter" "Ren" for??? and haven. Knowing the film Videodrome from 1983 with Max RENN you end up with the "joke" being like (W) Renn haven Max Drome. Very similar to Winterhafen Max Dome.

2022 Devils (series, start in Austria 21st of June - my birthday, feels like a reaction to gmy findings)

2022 Chrysta Bell Midnight Star (music, + live in Vienna at Porgy & Bess)

2022 I dish out the hints to the "Monkey Entrance" at beginning of August.

2022 I start working on the timeline and find most noteworthy key events and stories that support my suspicion that these events and people relate in one way or another to Gene Eliza Tierney. Start looking at the larger time-frame and note that really at the very beginning of the 20th and very end of 19th Century begins a strange series of tales, alongside spread of radiowave technology. I keep elaborating on the grander scale and move into details more as well.

2022 By end of August still no real world reaction from anyone, but the Germans were freaking out after my hint emails. Extremely heavy 2-3 days long headshots like every couple of seconds. Survive it but feel severely weakened and work on.

2022 Sep 1 I release the version 14 of this document and get killshocked utmost heavily. Especially Austrian/American air traffic, some German.

2022 Sep 2 I post the ADII Wolf City album and make a shot of a lion statue in front of Linz main station and post it too with the remark "No, this is Lion City, not Wolf City!". Then a picture of Hotel Wolfinger at Linz main Plaza.

2022 Sep 3-4 In the early morning I have another unholy Arabic mind flash. First comes in Karam (the Linz acquaintance) in a table talk scene. Then comes in a human/lion creature mix (like in "The Beauty and the Beast" and "Wizard of Oz") and I receive another really strong heart shock. This is followed by a two part Arabic white/merde unholy scene. It has exactly the tone of the first song of "Dune kkkkkk1"(game) "Spice Opera" quasi soundtrack (is actually more a standalone music album).

2022 Sep 6, I meet Karam Nada again and talk with him about some timeline events. Just before there is again the "Walla Walla" at the main station looking a bit like an Arabian fat version of me. In the talks he still always keeps a counter stance as far as possible and is trying to schitsel really always (going so far as trying to schitsel 1995 as 95 the number being a very special religious symbolism). Keeps defending Salman Rushdie's The Satanic Verses as really good book and clearly states he is a fan of it. Feels like it was also written for Duners like unholy Arabians since it also stresses the power/might of the devils for the Islam internal power struggle. Makes me rather sure that - as I had first assumed - 9/11 is a Dune/America coop with a strong Arabian smell (specifically Also Saudi Arabia). Karam Nada himself looks like a Saudi Arabian...

2022 Sep 7 I again get severely headnailed (like 12 inch nails...) and air pressured (also especially head). Again the Dune and Karam figures in the air. Also Austrian state and church jump in again negatively (police and shevad Nazi style). There is one strange hijacking attempt clearly done by the Rotax MaxDome - a "cart jacking" that is a short series of strong impulses showing someone in exactly each a cart as is used there.

2022 Sep 8 No doubt that Linz is the headquarter base for Vortex (1981) and Nada Moonshine (1995). Still nothing in terms of support was happening. Air bombardment seems like the only viable solution so far. Military intervention is required and was also like confirmed once over air. But still nothing in actual sight and life.
